-	Thermal insulation, Ceiling <sup>1/2</sup>	-	-	-

<sup>1</sup> Applies only to components with a U-value (Heat transfer coefficient) > 0,4  $\frac{W}{m^2K}$ . With a U-value < 0,4  $\frac{W}{m^2K}$  the country-specific requirements must be observed.

<sup>2</sup> The heat protection in front of mounting surfaces without flammable building materials and without built-in furniture on the back ("not combustible wall") must be provided with 8cm reference insulation or equivalent replacement insulation (for Silca 250KM = 50mm).
